SPECIAL PRESENTATION:

Lt. Bill Farmer, section commander, from the Pima County Sheriffs Department discussed their role in school safety and partnership with CFSD.

Lt. Farmer discussed the increase in school treats the last few months that has lead to panic and confusion in the community. The PCSD wants to be strongly connected to parents but requests that the community dials 911 for any threat. This will allow the PCSD to assign a deputy to begin an investigation through their evidence based threat assessment model to determine its validity.

Dr. Bartlett discussed the security audit recommendations and the \$5 million bond that was used to complete them. She reinforced that CFSD thinks and talks about safety all the time. If kids aren't safe, then they won't be learning. Learning is what needs to be continued. There is a confidential Emergency Operations Plan to staff and includes annual training. CFSD wants to regularly communicate with parents on ParentSquare which has an urgent alert for emergencies. In the event of an emergency wait for official communication and make sure emergency contacts are updated. There is increased counseling support including 13 dedicated lessons for each grade.
